

ETHIOPIAN FACTSHEET

October, 2022

**WINNER OF
MULTIPLE PRESTIGIOUS AWARDS
AT SKYTRAX 2022**

OVERVIEW

From a very humble beginning to a leading African Aviation Group, Ethiopian Airlines has come 75 plus years of successful journey. Of course Ethiopian is ageing beautifully. Throughout the past seven decades, the airline has established itself as adept in all facets of the aviation industry: technology leadership, network expansion and aviation mentoring.

Ethiopian started operation with five C-47 aircraft back in 1946 during its debut flight to Cairo via Asmara. Ever since, Ethiopian has been continually growing and has kept on introducing new aviation technology and systems, with so many firsts in the history of African aviation. As an aviation technology leader, Ethiopian introduced the first jet as well as the first B767, B777-200LR, B787 Dreamline r, and 787-9 into Africa. Ethiopian was also the first in Africa to acquire Airbus A350 XW B, introducing the extra effect to the African continent. Ethiopian currently operates a fleet of more than 140 modern aircraft, with an average fleet age of less than five years; Ethiopian also has 35 aircraft on order.

Living its motto of Bringing Africa Together and Beyond, Ethiopian has created Africa-wide and transcontinental air connectivity networks linking its main hub Addis Ababa to more than 131 international passenger and cargo destinations including over 62 African cities, with daily and more flights, with a minimum layover in Addis. As a veteran African carrier, Ethiopian has a vast Intra-Africa network better than any Airline.

Having met its vision in its 15-year strategic plan called vision 2025 ahead of time, Ethiopian is currently switching to a new strategic vision called Vision 2035. Ethiopian joined Star Alliance, the world's largest Airline network, in December 2011. Ethiopian is a multi-award-winning airline including: Four-Star Airline Certification in 2017, Overall Excellence for Outstanding Crisis Leadership 2020 and Skytrax 2021 and 2022 multiple prestigious awards including Best Airline in Africa for 5 consecutive years. Ethiopian, continuing to build on its success, has achieved an average growth of 25% in the seven years prior to the COVID-19 pandemic.

Ethiopian የኢትዮጵያ Aviation Academy

PIONEER OF AVIATION EXCELLENCE

Ethiopian Aviation Academy (EAA)

Ethiopian Aviation Academy (EAA) is the largest and most modern aviation academy in Africa recognized as ICAO regional Training Center of Excellence. To train aviation professionals from classrooms to simulator training, EAA offers leading industry standard training for pilots, aircraft technicians, cabin attendants and ground services staff both for initial and recurrent students. The Leadership & Career Development Center is also training thousands in Management and Leadership Skills. Our cabin crew training simulates real-time scenarios with training aircraft designed for emergency drills and service trainings. Our pilot training school uses light aircraft for its basic training and simulators. Full flight simulators of all fleets Ethiopian operates are available for pilot training. Virtual Maintenance Trainers (VMTs) and various workshops feature our aircraft maintenance training. Beyond these, our academy develops standard training packages including e-learning and virtual classroom training. Trainee services include a trainee's cafeteria, dormitories, an administration complex and a plush new auditorium. The academy plans to take in 4,000 students a year in its training programs

Full Flight Simulator

These are the most technologically advanced aircraft as a sign of the company's commitment to leading Africa's aviation industry. We have simulators for all the aircraft we fly; A350, B787, B777, B767/B757, B737 and Q400

Maintenance Repair & Overhaul

Ethiopian Maintenance Repair and Overhaul (MRO)

The scale of the MRO operation at Ethiopian is mesmerizing. It is the largest MRO service in Africa and serves Africa and the Middle East. The facility is fully equipped with Hangars, Engine and Component Maintenance workshops with all equipment needed to repair/overhaul aircraft, engines and components. Even if you have flown numerous times, you might not have fully appreciated the size of the largest civil jet engines until you are up close with these huge engines as you walk through the workshop. Established in 1957, Ethiopian MRO provides Line Maintenance services at stations where Ethiopian flies and extends the services to other operators. The facility is fully certified by the ETCAA, FAA and EASA. Ethiopian MRO offers world-class services to its customers and helps make Ethiopian one of the most dependable and safest airlines in the world

Ethiopian የኢትዮጵያ

Cargo & Logistics Services

Ethiopian Cargo

Ethiopian Cargo and Logistics services is the largest cargo network operator in Africa. Currently with our 9 - Boeing 777-200LR and 4 - Boeing 737-800F dedicated freighters, we serve 66 cargo destinations in Africa, the Middle East, Asia, Europe and the Americas with an average daily uplift of over 2000 tons of which over 611 tons is transported in a belly hold capacity. With human capital number of more than 17000 employees, it has achieved the highest aircraft daily utilization over 17 hours on its B777FS. With a modern warehouse of 1 million tons storage capacity, fully automated with one of the latest aviation Cargo IT systems and technologies, Ethiopian Cargo is providing its service globally. Through a revision of its vision 2025, Ethiopian Cargo and Logistics Services is planning to grow its cargo destinations and cargo operating aircraft to an impressive number by 2025.

Ethiopian የኢትዮጵያ Catering

Ethiopian Catering

Ethiopian In-Flight catering facility has a capacity to produce 100,000 meals a day. The facilities are modern and fully equipped to deal with high demand. Good food is important to our discerning customers. Ethiopian In-Flight Catering is dedicated to delivering high quality service and part of that is delivering high quality dining and beverage options. The new menus give customers the choice of local Injera, a vegan option, a variety of world cuisines including Chinese and Indian to Italian.

Ethiopian የኢትዮጵያ SKYLIGHT HOTEL

Ethiopian SkyLight Hotel

Ethiopian SkyLight Hotel is Ethiopian Airlines Groups' ultra-luxurious Five-Star hotel. Phase I of the hotel inaugurated on January 27, 2019, has a total of 373 stunning rooms with relaxing and superb designs that are suitable for both corporate and leisure travelers. Upon the completion of the hotel's phase II construction which is expected to come to an end soon, the hotel will have the capacity of 1000 rooms.

Ethiopian has also recently completed first phase construction of an In-Terminal Hotel (Ethiopian SkyLight In-Terminal Hotel) which is physically connected to Addis Ababa Bole International Departure Terminal 02. With the completion of the first phase the hotel availed 41 rooms for guests starting from July 2022. The second phase will avail the remaining 56 rooms, a restaurant and other facilities

Ethiopian Air port Expansion

Inaugurated on 27 Jan 2019, Addis Ababa Bole International Airport has the capacity to handle 22 million passengers per annum.
